Citation

How to cite PRISM

If you use the single binding sites and their functional association data please cite PRISM as follows:

Aaron M. Wenger, Shoa L. Clarke, Harendra Guturu, Jenny Chen, Bruce T. Schaar, Cory Y. McLean and Gill Bejerano. "PRISM offers a comprehensive genomic approach to transcription factor function prediction". Genome Res. 2013 May;23(5):889-904. PMID 23382538

How to cite COMPLEX

If you use the transcription factor complex binding motifs please cite COMPLEX as follows:

Why Cite PRISM/COMPLEX

Over the long run, the best way to assure the continued availability and development of PRISM and COMPLEX is for us to be able to show its relevance and contribution to biomedical research. We thank you for your support!
